

MADOFFCOIN

Hypertokenomic, Everyone Wins

WHITEPAPER

INTRODUCTION

MadoffCoin is an ambitious project that will embolden and unify serious, long-term Cryptocurrency investors to grow together as we bring exciting new financial products into the Cryptocurrency market. We are offering the first Hypertokenomic, enabling benefits for both early and late-stage investors; the first Cryptocurrency commodities trading platform; and the first Cryptocurrency insurance to protect our fellow investors.

With our winning formula, we aspire to provide the opportunity for all investors to optimize their benefits from our project.

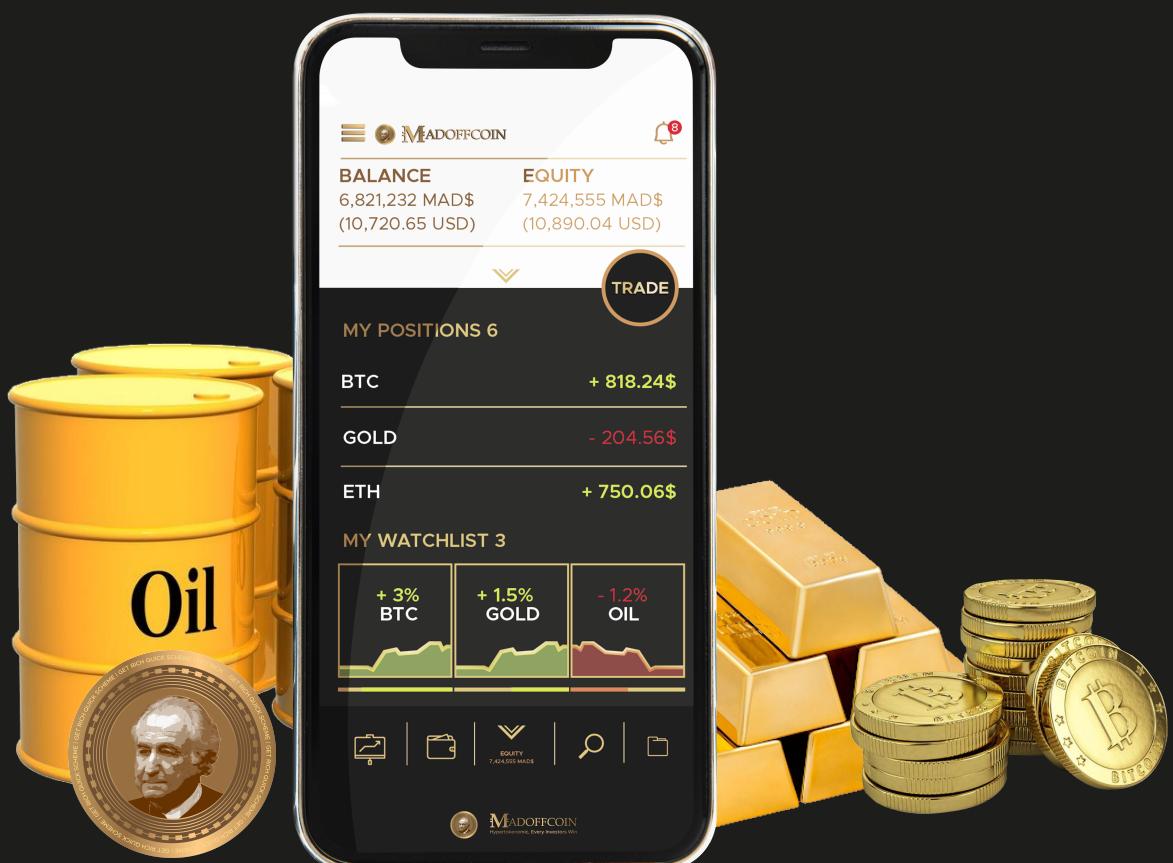

HYPERTOKENOMIC

Welcome to the new age of Tokenomics. Our Hypertokenomic presents a novel concept that rewards investors 10% of every transaction (buy and sell) according to their holding. This is double the average Tokenomic where a holder's distribution is only 5%. Hypertokenomic punishes whales for dumping large amounts of their holdings during a large spike and prevents short-term profit taking from bots and traders, while greatly rewarding long-term holders even during dips. In just one month, investors can double their MadoffCoin by just holding.

MADOFF EXCHANGE

Our goal is to bring more variety to Crypto investing. By offering our own exchange, we have the flexibility to introduce more exciting options, such as commodities trading using Cryptocurrency. This will create utility and value to MadoffCoin as investors are able to hedge their Cryptocurrency investment into commodities with intrinsic value. Imagine investing in gold, oil and other commodities in your portfolio through Cryptocurrencies.

MADOFFCOIN INSURANCE SCHEME

Our project endeavors to create the first ever cryptocurrency insurance plan, designed to protect your hard-earned investment from accidental cryptocurrency losses, such as transfer loss, hacking and the infamous “Rug Pull”.

CORPORATE SOCIAL RESPONSIBILITY

According to the Madoff Victim Fund (www.madoffvictimfund.com), to date there are over 15,194 victims with no prior recovery. We will pledge a portion of our revenue to work together with the Madoff Victim Fund to ensure those who suffered from these circumstances get the financial help they need.

The Mission Continues.
WE'RE HERE TO HELP.**

CRYPTOCURRENCY FINANCIAL LITERACY

From a global perspective, there are still large numbers of people who are oblivious to investing in cryptocurrency. While promoting the philanthropic benefits of MadoffCoin, we intend to educate the masses about Cryptocurrency as a whole. Our objective is to exponentially expand Cryptocurrency investing to new, conservative investors who are serious about fulfilling their long-term financial goals.

“Today, basically, on Wall Street, the big money is made by taking risks.”

Bernard Madoff
